## LITTLE BREEZE

Little Cayman (East), Cayman Islands

MLS# 420006

**CI\$475,000**

## CENTURY 21 Cayman Islands

## SUSTAINABLE INDEPENDENCE

Embrace a lifestyle of freedom and self-sufficiency. Designed to operate completely off-grid, this home combines solar PV, battery storage, and gas backup to deliver reliable energy without reliance on public utilities. With water generation, onsite water storage, and waste treatment systems, every element is thoughtfully engineered to minimize environmental impact while maximizing comfort.

Step into a future without monthly bills or external connections. Built with ultra-low energy consumption and a light touch on the surrounding land, this home offers true peace of mind — a sanctuary where modern convenience meets sustainable living, and where you are fully in control of your own resources.

## CENTURY 21 Cayman Islands

### DESIGN

Tucked away on the tranquil shores of Little Cayman, this one-bedroom, one-bath eco-home redefines island living. Powered entirely by solar and battery systems, it offers true off-grid independence while treading lightly on the environment.

With a focus on beach elegance with a modern twist, the design draws from Scandinavian principles of simplicity and functionality. Its clean lines, open layout, and contemporary coastal style create a seamless connection between indoor comfort and the island's natural beauty.

Soft neutral tones and natural textures evoke calm and serenity, while organic materials and timeless finishes ground the home in its tropical surroundings. The result is a refined yet relaxed retreat — a sanctuary of sustainable, modern living in one of the Caribbean's most untouched landscapes.
